The parts marked "from the base set" come with the free base set download. Get it at cannonsandcoastlines.com/print-list/base-set.

MATERIAL	LAYER HEIGHT	Z CONTOURING	ORIENTATION
PLA	0.12–0.20 mm (0.16 mm recommended)	On	Use your slicer's auto-orient.
INFILL			
10% or more			

Printing and putting it together

1. Print the fit test (ship-tolerance-test.stl in the base set) first. If a peg is loose, scale it up 0.5 to 1% in your slicer. If it's tight, sand it a bit.
2. Print a spare cannon or two.
3. Stretch a 10 mm rubber band or silicone cable tie around each wheel's rim and push the wheel into the slot under the stern. It should be snug but still spin, and it stays in.
4. Plug the fittings into the deck.

What a game needs

For a game you also need coins, islands and terrain. They're in the free base set, and its print list has everything a game needs. cannonsandcoastlines.com/print-list/base-set
